

Special Accessories (for BT30•BBT30)

Retention Knob

Model: P30T-II

Retention Knob for CTS

(with center hole)
Model: P30TB

Tool Clamps

Model: YTC30

- The Tool Clamps can be fixed vertically or horizontally.
- Compact design-measuring 80 mm wide, 140 mm high, and 120 mm deep.

Tool Presetters

Model: TPR2030 II-30
TPR2030 II-BT30

- The simple structure enables easy operation.
- The “-BT 30” type locks the V-flange of the BT shanks.

Length Adjustment Screw (APM)

- ◆ The top of the Length Adjustment Screw has a semispherical structure, and therefore absorbs the inclination of tools and stabilizes the runout accuracy.
- ◆ The Length Adjustment Screws (APM) are special accessories. Order them separately.

Coolant Seal Screws

- ◆ Compatible with coolant at a high pressure of 7.0 MPa or less.
- ◆ We have the CSH type (length adjustment type) and the CSE (fixed length type) of the Coolant Seal Screws.
- ◆ The Coolant Seal Screws (CSE type, CSH type) are special accessories. Order them separately.

Spanners for Length Adjustment Screw APM type (SA)

- ◆ The Spanners for Length Adjustment Screw APM type (SA) are special accessories. Order them separately.

Spanners for Coolant Seal Screw (CS)

- ◆ The Spanners for Coolant Seal Screw (CS) are special accessories. Order them separately.

Table of Length Adjustment Screw, Coolant Sealing Screw

Applicable Main Body	Screw Size	Length Adjustment Screw		Coolant Seal Screw (fixed length type)		Coolant Seal Screw (length adjustment type)	
		APM		CSE		CSH	
		Main Body	Spanner	Main Body	Spanner	Main Body	Spanner
SGC 6	M8×0.75	APM 6	SA 7/8	—		CSH 6	
SGC 8	M10×1.5	APM 8-1	SA 7/8	CSE 8		CSH 8	
		APM 8-2					
SGC10	M12×1.5	APM10-1	SA10	CSE10		CSH10	
		APM10-2
